

## To Commemorate First Trans-Atlantic Flight By British

On June 14th, The Imperial Order Daughters of the Empire through their chapters throughout Canada will celebrate the successful completion of the first Trans-Atlantic Flight.

The first trans-Atlantic flight was successfully accomplished by two British aviators, Captain John Alcock, D.C.S., pilot, and Lieut. Arthur Whitten Brown, navigator.

Captain Alcock and Lieutenant Brown left St. John's, Newfoundland, at 5:13 p.m. Saturday, June 14, 1919, and landed near Clifden, Galway, Ireland, at 9:40 the next morning—a flight of 1,880 miles, taking only fifteen hours fifty-seven minutes—a truly marvellous flight, which won for the victors a prize of 10,000 pounds sterling.

Both Captain Alcock and Lieutenant Brown were knighted by His Majesty the King in 1919. Sir John Alcock crashed during a flight about a year later and was killed.

Mrs. Chapter, I.O.D.E., Didsbury, propose to commemorate this event by a Garden Party, to be held at the home of Mrs. Kendrick on that day, from 4 to 9 o'clock. Tea 25c, Lunch 35c. Musical program.

## Coming Events

Westerdale annual sports day and picnic, Thursday, July 18th.

Remember the Didsbury Pioneer and Old Timers re-union on Wednesday, June 26 on the fair grounds. Bring your picnic lunch at noon. Coffee will be furnished free on the grounds. A program of song, speeches and sports will follow. You and your family are invited.

## New Feature Story In Pioneer Columns

It is a unique coincidence that "The Desert Song," with its tale of love and banditry in North Africa, its Riffs and Arabs and foreign legionnaires, the new serial story secured by the Pioneer for its readers, should appear as a play on the Grand Theatre stage, Calgary, this week.

It is a gay, fantastical story, peopled with a little French girl, the Governor's ward, who bullies the soldiers, teases her fiancé, and longs for adventure and thrills with the giant ruffian, the "Red Shadow," leader of the Riff riders.

The hero of the story is a sort of dual personality; while among the French he poses as a lacadaisical half wit. Among the Riffs he is the "Red Shadow"—intrepid soldier, avenger of desert people's wrongs against the French. It is he who attempts to rouse Margot's love by kidnapping her.

J. A. McGhee, D.D.G.M. is a visitor to Lethbridge this week attending the annual meeting of the Grand Lodge.

## New Regulations For Visiting Motorists

After July 1, 1929, any automobile being driven in Alberta with foreign license plates must carry on its windshield a sticker showing that the car bears a non-resident permit to be operated in this province. These permits which may be secured from provincial police officers, parks officials and others who come in contact with the travelling public, will provide a definite record of the number of cars visiting the province each year and the points of origin. The permit when issued is good for three months from date of issue and must be applied for within seven days of entrance into the province.

## Didsbury Golf Course Record Is Lowered

L. Welliver, Red Deer, set a new record for the Didsbury golf course on Sunday in the second round of play in the Herald Golf Competition. He shot a 70 to equal par for the course.

There was a large turnout of players from Innisfail, Red Deer, Lacombe and Didsbury. Competition was very keen and the total scores to date leave the winner of the district doubtful.

Welliver had his wooden clubs working perfectly driving consistently up to 300 yards. He is now leading the district with a score of 157 for 36 holes. Grieve of Innis-

## Increased Automobile Registrations

The number of automobile licenses issued in Alberta during the first five months of 1929 exceeds by over 3,000 the total number for the year 1928, it is announced by E. Trowbridge, Deputy Provincial Secretary. Already this year over 90,000 cars and trucks have been registered as compared with 87,221 last year. A considerable increase in the consumption of gasoline is also indicated in Mr. Trowbridge's report which shows that the revenue from gasoline tax for the first five months has exceeded that of the same period in 1928 by some \$170,000.

fail is one stroke behind Gaetz. Red Deer and Grant, Innisfail tied for third place with 160.

## Didsbury Fish and Game Association Public Meet

A good crowd of young and old, the majority representative of the rural districts, assembled in the Opera House, Didsbury, Friday evening last, to view the motion pictures on "Wild Life" and to hear the special speakers brought to Didsbury for the occasion by the local branch of the Alberta Fish and Game Association.

Four reels, supplied by the courtesy of the C.P.R., of which two were scenic, and the others depicting "Wild Life" were shown on the by the courtesy of the theatre management. J. A. McGhee, president of the Didsbury Fish and Game Association, was the first speaker of the evening. He emphasized the purpose of the meeting, stressing particularly the four competitions in the destruction of the farm pest, staged by the Provincial Government, for which prizes are offered. A crowd and maple shoot is to be staged this month, for which Messrs. Julien and McNaughton have been chosen captains. The winning side to be the guests at a supper at the expense of the losers.

C. F. Dooley, a member of the executive committee of the local branch spoke briefly, explaining the contents of the rules of the competitions. In the case of bounties paid by the municipal districts in Didsbury he competitor will obtain a receipt from the Secretary-Treasurer of the municipal district, in which he lives, from either Mr. Bruns or Mr. McNaughton, and present same to Mr. Dooley at the Atlas Lumber Co. office when he will give the official competition receipt. Do not forget that to obtain the extra points receipts must be obtained for pests killed on or before June 30, and forwarded to the Department of Agriculture, Edmonton, not later than July 20.

C. H. Hayden, the author and president of the Alberta Fish and Game Association, was the special speaker of the evening. He stated that this province, the youngest in the Dominion, is endeavoring to have formed a Dominion Fish and Game Association, and their efforts are nearing fruition. The speaker compared the timely salvation from utter extermination of the buffalo in North America, and likened such to the wild game and fish streams in the province, the extinction of which is bound to take place unless protective measures and restocking methods are employed.

It is for the coming generation, continued the speaker, that the wild bird life and fish streams are being protected and their numbers increased. The rough grouse and prairie chicken are becoming almost birds of the past and the Government and the Association have introduced the Hungarian partridge and the Chinese pheasant. Eight hundred pheasant eggs were brought into the province this year and it is hoped to have 6,000 to 7,000 birds to spread over the province next year. Another bird being introduced into Alberta is the Bob White Quail.

Negotiations have been completed

(Continued on Page 8)

## Local Ball Players Contest Three Very Close-Matched Games

Olds 4; Didsbury 3

The league baseball game staged Wednesday evening of last week against Olds was the best game played on the local diamond this season. Mix on the mound for the locals pitched nice ball, allowing only one hit, but he did not get the support he deserved as seven errors were made three of which occurred in the second inning, and which Olds took advantage, crossing the home plate three times. From then on the visitors were held scoreless until the last inning in which the visitors scored one run. Didsbury scored two runs in the first inning and one in the ninth. The last three innings the locals had a man on third base when the third man went out.

Crossfield 6; Didsbury 5

Didsbury journeyed to Crossfield Monday evening to play their scheduled Rosebud league game, and were very unfortunate in not returning home victorious. The locals were up three runs at the beginning of the eighth inning, but Crossfield came back with two runs in this inning and two in the ninth. Mix hurling for Didsbury and Johnson for Crossfield both pitched good ball and were given wonderful support.

Crossfield plays here tonight at 6:15 sharp.

Innisfail 9, Didsbury 6

At Innisfail, Friday evening last, Didsbury and that town's Rosebud league baseball team played a close contest, resulting in a victory for Innisfail. Devolin and Studer did the twirling for the locals and were given fairly good support, except in one inning when three errors were made in the infield, allowing Innisfail four runs. Hall started on the mound for Innisfail and was relieved by Russell in the second inning after Didsbury had secured four runs. Heavy hitting on both sides made it a very interesting game for the spectators.

## Great Soldier's Warning Against War

One of the gravest errors some pacifists make, says Toronto Saturday Night, is to suppose that all soldiers of military ability favor war. This is far from being true and the fact is illustrated by the great British general, Field Marshal Sir William Robertson, who has on many occasions raised his voice against war as an institution for the settlement of international disputes.

Quite recently he has spoken again, pointing out that the desire to avoid another war is common to most countries. It would be strange if it were not so, he says, inasmuch as the last war cost the world ten million lives or double the number lost in all wars of the preceding 120 years put together. It also cost not less than \$350,000,000,000, a sum that the human mind is hardly competent to conceive, to say nothing of an incalculable total of distress, sorrow and injury. Its failure as a solution of international dispute is demonstrable from the fact that it left behind grievances and resentments that can not be eradicated within the lifetime of most adults now living.

Yet though war is condemned by the intelligent men of all the nations who twenty years ago thought of it lightly as an inevitable future development, not devoid of possible advantages, preparations go on much as they did prior to 1914. Sir William Robertson is genuinely alarmed over the tendency to increasing competition in armaments. All the great powers, with (we are glad to note), the exception of Great Britain, are today spending more money on armed forces than they spent five years ago. Even with a reduced scale of expenditure Great Britain is practically compelled to spend \$1,275,000,000, irrespective of the contributions of India and other parts of the Empire, from the sheer necessity of fulfilling her military responsibilities in various parts of the world and protecting sea communications. France and Italy today have approximately as many men under arms as in 1914. Germany is complaining of her defenceless position, and if armaments are piled up by her neighbors, must some day be given permission to arm also. Many smaller nations of Europe are on a military footing and maintaining a threatening attitude toward each other. The United States feels that future security demands a vast additional naval expenditure.

What does all this madness portend? Peace is a game which all must play if it is to be maintained. Let us hope that the craze for armament falls of its own weight before the nations get at each other's throats again. The only vestige of a silver lining lies in the fact that machinery for the isolation and prevention of wars now exists, a factor never previously known in the world's history; but it is plain that the miracle which will convert the human mass from madness to sanity cannot be performed with a single gesture.

### Every Day Circus Day

#### Capital Of Southern Morocco Never Lacks Entertainment

Every day is circus day in Marrakech, the capital of Southern Morocco, in which life goes on much as it did in the days of the Arabian Nights, according to a writer in the "Living Age." The hard-packed, reddish soil is an arena for all the fakirs and entertainers of North Africa, for the city is still the guardian of the old caravan route from the desert's rim to the sea.

Acrobats, snake charmers, story tellers, musicians, and the rest, daily and nightly entertain travellers who are armed with wicked knives, and display every skin shade from the blondness of the Rifian to the ebony of the pure negro.

### Charting Swiss Glaciers

Ninety-two of the Swiss glaciers are being measured to see whether they advance or recede. A thin steel wire is fastened across the snout of the glacier attached to a dial on either side. At present fourteen are advancing and seventy-three receding.

## To Check "FLU," Grippe

Fights the Germs in the Throat Before They Invade Other Parts of the Body.

### EFFECTIVE PREVENTIVE MEASURES EXPLAINED

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of Influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nerviline. Half a teaspoonful of Nerviline in water makes a most efficient gargle. The germ-killing properties of Nerviline quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure, to rub the neck and chest with Nerviline. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding wastes. This combination treatment of Nerviline and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

### What Britain Has Done

#### Has Led the World in Disarmament Says Stanley Baldwin

"Years ago seaman sailed from Plymouth to discover a new world. We are going to rediscover a new moral world, which is a very much harder task," said Premier Stanley Baldwin, speaking at Plymouth, during his campaign tour of western England.

"We have led the way to disarmament," the premier said. "The fleet today is half the size it was in 1913. That is practical disarmament and no nation in the world can come any where near that, yet there are Englishmen who say we are lagging behind."

"My hope is that the new government will be able to conclude an agreement with the United States which will lift the whole problem of disarmament to a new plane of action and not talk."

## CORNS

### Relief in 2 Minutes

Just a drop or two of Putnam's Corn Extractor, and the pain goes away. Relief is almost instantaneous. Removing corns with "PUTNAM'S" is so easy, so sure, so painless—thousands use this wonderful remedy and say it is the best. Don't suffer any longer, use Putnam's Corn Extractor, the one sure relief for sore corns. Sold at every drug store.

### New Appointment

The appointment is announced by W. D. Robb, vice-president of the Canadian National Railways, of E. A. Weir, hitherto European publicity agent of the Canadian National system at London, England, to be director of radio for the system, with headquarters at Montreal, succeeding the late A. R. McEwan.

## THE RESPONSIBILITY OF EVERY MOTHER

The child in the home is a never-failing source of joy, but, at the same time a never-failing responsibility to the fond mother. It not infrequently happens that minor ailments of the child distress and puzzle her. She does not know just what to do, yet feels them not serious enough to warrant calling in the doctor. At just such times as these it is found that Baby's Own Tablets are the mothers greatest help and friend.

Most childhood ailments arise in the digestive tract—the bowels become clogged and the stomach sour. Baby's Own Tablets are a never-failing relief for this condition. They are a mild but thorough laxative and through their action on the stomach and bowels they banish constipation and indigestion; break up colds and simple fever; allay the pain accompanying the cutting of teeth and promote health-giving sleep. Concerning them Mrs. W. Jennings, Mackay, Ont., writes:—"I have used Baby's Own Tablets and think so highly of them that I would not be without them. Please send me your little booklet on the care of children."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

### Mail Service For North

#### Areas In Northern Manitoba To Be Brought Within Closer Touch Of Outside World

Dwellers in the remote areas of Northern Manitoba will be brought into closer touch with the "outside" world this summer through arrangements made by the Post Office Department, adding settlements at Oxford, Gods and Island Lake to the growing chain of northern mail points of call. Mail will be delivered once a week with Norway House, at the northern end of Lake Winnipeg, as the distributing centre.

Miller's Worm Powders are the medicine for children who are found suffering from the ravages of worms. They immediately alter the stomachic conditions under which the worms subsist and drive them from the system, and, at the same time, they are tonical in their effect upon the digestive organs, restoring them to healthful operation and ensuring immunity from further disorders from such a cause.

The way of the transgressor remains similar to that of the pedestrian.—Kingston Whig-Standard.

### New De Luxe Train Equipment

#### Many Western Towns Honored By Lending Appellation To Luxurious Sleeping Cars

With a desire to honour some of the fast growing communities of Western Canada, the Canadian Pacific Railway is naming its new de-luxe train equipment in honor of these communities. Twenty-nine new sleepers of the latest type are thus called, and will be known in railway circles as the "R" series. They include eight sections, two compartments and one drawing-room, and the berth sections are equipped with semi-permanent partitions to insure greater privacy to passengers.

The new sleepers will make a great appeal to ladies, for they have a huge dressing room with plenty of lounge accommodation as well as up-to-date toilet facilities. Brown is the dominant colour scheme, carried out in tapestry, upholstery, berth curtains and carpets. All the latest safety devices are embodied in them, and marvellous ventilation is achieved through a forced process through the roof.

The points honoured in this manner by the Canadian Pacific are: Ravenscrag, Revelstoke, Red Deer, Ruby Creek, Ruskin, Rutherglen, Regina, Renown, Rosetown, Rosser, Rosemere, Riverton, Robindale, Rathwell, Rocanville, Rapid City, Rosenfeld, Rosemary, Redcliff, Raymond, Romford, Reston, Regent, Renfrew, Redvers, Richford, Rossport, Rennie, Rossland.

This new series will be moved on that train over Western Canadian Pacific lines, as part of a million dollar equipment which makes up each No. 7 and 8.

### New Trade Commissioner

It is officially announced that a new trade commissioner office of the Department of Trade and Commerce has just been opened in Oslo, Norway, with F. H. Palmer as acting trade commissioner, the territory covered including Sweden, Denmark, and Finland as well as Norway.

### Harvest Kelp From Sea Floor

#### Weed Is Being Tested For Value As Cattle Fodder

Seaweed is now believed to be an extremely valuable food for cattle and other live stock, and now a Los Angeles inventor comes forward with a machine for gathering it from the bottom of the sea. His machine, which was recently demonstrated in California, is mounted on a scow. An endless belt of spiked crosspieces runs from the surface of the scow to the harbor bottom, where blades tear off the kelp. The weeds catch upon the moving crosspieces and are raised to the scow, where they are piled up like hay to dry.

The kelp is then ground and fed to farm animals with their hay and grain. It may also be used as a fertilizer, and from it can be extracted large quantities of iodine and potash. Tests are now being made to determine its relative value as cattle fodder.

**Cuts and Bruises Disappear.**—When suffering from cuts, scratches, bruises, sprains, sore throat or chest and any similar ailment, use Dr. Thomas' Electric Oil. Its healing power is well-known in every section of the community. A bottle of Dr. Thomas' Electric Oil should be in every medicine chest ready for the emergencies that may always be anticipated.

The English language is spoken by 180,000,000 people. German, by 120,000,000, and French by 90,000,000.

**WANTED**

## Commercial Fertilizers Must Be Produced In Increasing Amount To Maintain Present Crop Yield

The astonishing computation is made that if the farmers of Canada were to entirely replace by chemical fertilizers the amount of plant food annually used it would entail a yearly expenditure of \$385,000,000. This figure, contained in a new report on "The Commercial Fertilizer Industry in Canada" prepared by the Natural Resources Intelligence Service of the Department of the Interior, at Ottawa, is not intended to create alarm but is merely informative. As a matter of fact the computation embraces the cultivated area of the Prairie Provinces where the soils are naturally very rich, and there is a division of opinion on the present need of fertilizers there. Without considering the three prairie provinces the fertilizer bill would nevertheless be very considerable amounting to over \$141,000,000.

The fact is stressed that such computations are theoretical and of no practical value except as pointing to the immense field open in time for the fertilizer industry in Canada. The aim of the report is stated to be to put before the Canadian public the latest view of experts in world economies that commercial fertilizers must be produced in ever increasing amount to maintain present yield and sustain a multiplying population and to show the amount of commercial fertilizer which Canada is using, might use, and may contribute to the world demand.

Contrasting with the value of the commercial fertilizer theoretically necessary to replace depletion the soil is the actual figure of \$5,904,153 expended in Canada for purchased fertilizers in 1927. Though depletion of the soil is going on year after year the annual consumption of fertilizer in Canada is not increasing rapidly as is shown by the expenditure of \$1,408,320 in 1918. It is held that there is a boundless field in Canada for the manufacture of commercial fertilizers but that to reach the full benefit of the growing market awaiting the industry the Canadian demand must be strengthened by education of the farmer and in the rural schools, by practical demonstration of the value of fertilizers. Manufacturers, producers, and distributors need co-operation and the consolidation that other industries are finding necessary with a view to greater efficiency, uniform marketing and economy in production.

An interesting section of the 50-page mimeographed memorandum gives figures to show how the present low rate of yield of the larger crops compared with that in other countries might be profitably increased by the use of commercial fertilizers as advised by the Department of Agriculture. Prevailing tariffs and Dominion Acts regulating sale and manufacture of fertilizers are dealt with and a map indicates the location and names of producers of commercial fertilizers, and fertilizer materials, whether wholly or partly manufactured in Canada. Copies of the publication may be obtained free of charge from the director, Natural Resources Intelligence Service, Department of the Interior, Ottawa.

Traffic Policeman: "Say, do you know why I stopped you?"

Proud Father: "Oh, yes. You want to hear about the cute thing that baby said just before I left the house?"

"How is Antonio?"

"Very bad. Yesterday he had to sell his false teeth to get a bite to eat." Buen Humor, Madrid.

W. N. U. 1787

### Real Wealth At Home

#### Canadian People Will Not Find Better Opportunities Elsewhere

In January, there were 4,164 persons who came to Canada as immigrants, and 4,427 persons left the country as emigrants.

Assuming that persons move from one country to another to improve their positions in life, one is reminded of an utterance of an English writer, William McFee. In his recently published life of Frohisher, Mr. McFee remarks that while the Elizabethan adventurers were seeking gold abroad, and while Frohisher was taking back to England useless rock from Arctic islands, the real wealth of Britain was in the coal about one mile below the estate which Sir Martin was able to purchase in his later years.

Canada is a real land of opportunity. But unfortunately some of her people continue to think that opportunities are better in other lands.

SMART TAILLEUR

Its tailored simplicity will appeal to good taste for general daytime wear, interpreted in silk crepe in naval dot pattern. The vivid plain silk crepe piping and stitching which emphasizes its classic tailored lines, is what makes Style No. 481 so smart. It is easily made, the pattern for which can be had in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust. It is fashionable in angora jersey, in chartreuse green, plain washable silk crepe in violet shade, red and white gingham check in silk crepe, featherweight tweed in wood-violet tones in tiny check pattern, lipstick red crepe de chine, printed pique, navy blue crepe marocain, grasshopper green georgette crepe and blue-violet silk crepe. Pattern for this unusual model price 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

We suggest that when you send for this pattern, you enclose 10 cents additional for a copy of our Spring Fashion Magazine. It's just filled with delightful styles, including smart ensembles, and cute designs for the kiddies.

### Making the Farm Popular

#### Learning Scientific Methods Proves Fascinating To Students

Pessimistic views as to the future of Canadian agriculture should have been dispelled from the mind of anyone who attended the winding-up dinner given to the pupils of the short courses which have been held. The enthusiasm that was evident among all the students proved that education in scientific methods of farming can be as fascinating as any other type of learning, when it is carried out under teachers who love their work and by boys and girls who are in a receptive mood. It is not hard to realize that the practical teaching which they receive at these courses is a good deal more attractive to the active minds of the young folks than is the laborious memorizing of "amo, amas, amat," or the struggle with a recalcitrant comic (not comic) section.

### Waging War Against Gophers

#### Bounty Offered By Alberta Department Of Agriculture

Cash prizes ranging from \$1 to \$200 will be paid by the Alberta Department of Agriculture for gopher tails and feet and eggs of crows and magpies taken in Alberta on or before November 1. A special feature has been added to the bounties this year, also, for gophers and crows and magpies taken early in the season, and on or before June 30. Feet of crows or magpies will be credited with five points each; eggs of crows or magpies will be credited with five points each and tails of gophers will be credited with three points each prior to this date.

### Oil From Bituminous Sand

#### Alberta Government Will Undertake a New Experiment

The Alberta Government intends to separate oil from a quantity of bituminous sand and to turn over to commercial institutions the oil produced in order that tests may be made, also to test the oil extracted in road construction projects. There are also surveys planned under Dr. Wyatt, a water survey in charge of Dr. Rutherford and a Pre-Cambrian survey with Dr. Cameron in charge.

It takes 1,500 nuts to hold an automobile together, but it only takes one to spread it all over the landscape.

## Saskatchewan Wheat Pool Conducting a Survey Of Wheat Grown In Province

### Depends On the People

#### Churches In Russia Closed Only When Majority Favors Change

Five hundred and thirty-two places of public worship were closed in the soviet union in 1928. They were converted into clubs, public schools, boarding houses, libraries and reading rooms, ambulances and hospitals, cultural centres, or museums.

Two hundred and fifty-three more places are marked for similar conversion this year, but there will be plenty left for religious purposes. A recent survey showed that there were some 50,000 churches in all of Russia.

The places of worship are closed to religious purposes only when a majority of the local population favors the change. A vote is taken if the initiative comes from local authorities. The 1928 list included 351 orthodox churches and 38 monasteries; 59 synagogues, 38 mosques, and 43 buildings belonging to various sects.

### Leaning Tower Dispute Still Rages

#### Old Discussion Comes Up Again Regarding the Tower Of Pisa

"Why does it lean?"—that old, old question reverberating around the tower at Pisa—is again the subject of violent debate in Italy, says the Italy-America Society. There used to be two schools of opinion: One held that the tower was intended to lean from the beginning—a quaint conceit of the architect's; the other maintained that a subsidence of earth inadvertently caused the tilt. A third school is now busy converting the other two. Here is what really happened. The original architect intended it to be straight. When partially built it began to lean. The builders then offset the leaning by continuing the construction at an angle to balance. All agree, however, that Pisa's tower is strikingly beautiful and safe.

When bridge work is mentioned now you have to wait and see if it's teeth, cards, or viaducts.

The Saskatchewan Wheat Pool is conducting a survey of the varieties of wheat grown in this province. This work has been undertaken in conjunction with the provincial cereal committee, which was constituted in the spring of 1928 at the request of the pool, to bring about the desired uniformity of recommendations by agricultural authorities.

A questionnaire was sent out to 6,000 members of wheat pool committees. Approximately 2,500 replies have been received. Among the questions asked were the following: "What variety of wheat do you grow? Why that variety? What other varieties are grown in your district? Why are they grown? What variety is showing the most rapid increase?"

The replies are now being tabulated. The wheat pool has had the co-operation of the university, the provincial department of agriculture and the Dominion experimental farms.

Another piece of work has been undertaken by the Manitoba and Saskatchewan pools in co-operation with the Western Canadian Society of Agronomy in determining the extent of admixture of varieties and where such mixing takes place.

Simultaneously this year, in Saskatchewan and Manitoba, under the direction of the interprovincial committee of the Western Canadian Society of Agronomy, the pools have collected samples of wheat; (1) as sown by farmers, (2) as delivered by farmers to country elevators, (3) as delivered by railroads at terminal elevators, (4) as loaded into lake vessels by terminal elevators, and (5) as delivered by ocean vessels to British markets.

The samples thus collected are being grown by the experimental institutions in the provinces along with pure samples of the wheat varieties grown to any considerable extent in western Canada. Milling and baking tests will be made from these pure samples and compared with similar tests made from typical mixtures of varieties as found in the various classes of wheat grown on experimental farms from the samples collected.

It is hoped by this work to arrive at an answer to the question as to who is responsible for the mixture of varieties which takes place between pure seed and the old country miller, and in what manner such mixture affects the quality of the flour.

### Vancouver Airplane Factory

#### New Concern Will Commence Operations At Coast City

Establishment of Vancouver's first aeroplane factory will be undertaken at once following the merger of Hoffer-Beeching Shipyards Limited with the Boeing Aeroplane Company of Seattle, it is announced by Henry Hoffer, President of the British Columbia concern. The new company will be known as Boeing Aircraft, Limited, of Canada. It will be a Canadian concern, using Canadian labor and material, the engines being manufactured in Montreal.

### Need Packing Plant For Saskatoon

The Saskatoon Board of Trade is moving to develop the livestock industry in the region to the point of being able to support a packing plant. Commissioner J. H. Holmes recently pointed to the large increase in stock shipments from the city as significant of the growing need and necessity for a packing plant.

"What are you playing there?"

"Heavens, I have been playing all the fly marks."—Lustige Kolner Zeitung, Cologne.

## A HARD PAR 4

No. 8, Tekarra's Cut—430 yards, Par 4.

Many hopes for a fine score have been wrecked by hole No. 8 of the Jasper Park Lodge Golf Course, Jasper National Park, Alberta, over which the Canadian amateur championship of the R.C.G.A. will be played from August 19th to 24th this summer. It is a dog-leg with a high knoll to be negotiated before the second shot can be placed on a sloping green that is lightning fast and guarded by a deep grass covered ditch. The contour of this green is such that an error of a fraction of an inch in putting means disaster.

Co incident with the Canadian Amateur, the Western Canada Amateur will be played over the Jasper Park Lodge Course, and this will provide plenty of competition for those whose high handicaps automatically keep them out of the Dominion event.

The upper photograph shows the fairway just below the elevated tee. Below is a sketch to scale showing the hole in detail. Play in the tournament will take place from No. 1 tee.

**DEPLORABLE IMPORTS**

A powerful attack is again being directed by Alberta editors against the immoral literature that flows across the border from United States, little checked by the slight change in the application of duty upon yellow news-stand periodicals that cannot qualify as literature.

This fresh attack is occasioned by the exclamations of horror from across the border that Canada would not help stem the flow of rum. Here is what Charles Clark, editor of the High River Times has to say of this national need that urid sex literature and trashy periodicals should be excluded:

"The hectic discussions on the 'I'm Alone' case have produced the argument that Canada should co-operate with United States in stemming the flow of Canadian liquor across the border. They consider that Canada, by permitting the American citizen to get Canadian liquor, is undermining his morale.

"There may be truth in the argument. But how about the reverse side? Canadian youth is becoming corrupted quite as surely by the flow of demoralizing literature which pours into Canada from across the line. The highest types of American journal and the lowest alike have free entry—but which is the more widely read? Ask any newsdealer.

"At Vancouver the National Council of Education, in discussing the alarming influence on Canadian youths, chose at random a Vancouver news-stand, and, by means of moving pictures, presented to the convention the publications sold and the relative sales value.

"The evidence there was shameful. Many of the magazines and newspapers having the greatest sales featured immorality, sensuality, violence and crime.

"Editorial writers across Canada are urging that the government take instant action in stemming this flood of literature. It must be done before the national spirit, and all regard for honor and ideals become blurred."

This from the pen of a veteran editor in Alberta and a director of the C.W.N.A. H. G. McCrea, secretary of the Alberta division, C.W.N.A., also dealt with damming the flood of yellow literature in the editorial columns of the Hanna Herald. With his virile pen, he puts the question on the plane of national safety, asking pertinently:

"Are we to continue to allow a situation infinitely more important to Canada than the sinking of the 'I'm Alone' to continue without official attention? Ottawa should see the handwriting on the wall, lest this become a national issue, overthrowing a government so unmindful of national safety."

There's bitter criticism of the merchants of St. Paul for adopting the cash system. Some of the farmers intimate that they will form a co-operative where, in the stronger farmers will buy wholesale and sell merchandise on time to the less fortunate homesteaders. Many submit that the system could better be adopted, say, next December. On the other hand some of the merchants contend that they could not have carried on until the next crop, and that with the cash system in vogue they can pay cash to their wholesalers. — St. Paul (Alta.) Journal.

**LOCAL & GENERAL**

Baseball to-night. Crossfield at Didsbury.

Mr. Dan Dippel left on the noon train on Tuesday for Regina.

Mr. and Mrs. Ward Keith motored to Hillcrest last week to visit friends.

Mr. and Mrs. F. Reiffenstein motored to Sylvan Lake on Sunday.

There are no baseball games scheduled for the local diamond next week.

Messrs E. G. Ranton and W. McInnes motored to Edmonton on Sunday.

Mr. and Mrs. Harold Clemens of Calgary were visitors to Didsbury over the week-end.

Mr. Jim Halton motored to Calgary on Friday last to take in the Belanger and Miller fight.

The Womens Guild of St. Cyprians Church, will hold their summer sale in the opera house, on Saturday, June 15th opening at 2 p. m. There will be plain and fancy sewing, home cooking, candy etc. Tea will be served from 3 to 6 p. m. 23-2c

**PROTECT CAR DRIVERS**

In these times when protection is being so largely stressed, there should be recognition of the rights of car drivers. If there is anything that they should be spared, it is the practice of irresponsible youths hurling missiles at passing automobiles.

One frequently sees, during the winter time, children pelting motor cars with snow balls. And when spring rolls round, then pebbles are cast at cars as they go by. Not long ago, an Edmonton motorist lost the sight of one eye owing to a boy having hurled a small stone which broke the windshield, while flying fragments lit in the driver's face.

Under the criminal code, a penalty of two years imprisonment may be imposed upon anyone found guilty of throwing missiles at trains. The consequences of hitting the driver of a motor car are much more serious however, as handling of the car depends upon the person at the wheel while a train has the tracks to keep it in place.

Parents of children should impress upon them the danger of throwing missiles at motor cars and make every endeavor to curb a practice that is fraught with dire possibilities.

## Lowest Price in Frigidaire history

THE new Frigidaire represents the greatest value ever offered in electric refrigeration. It embodies every essential Frigidaire feature—including the famous Cold Control. It is offered at the lowest price in Frigidaire history—and with General Motors easy payment terms. It operates from farm electric plants or central station current. See it right away.

CALGARY

**PLANNING MOTOR TOURS**

Many Albertans are doubtless intending to make motor trips this summer, as this is rapidly becoming the fair weather recreation of this country. The tendency is for more and more people to enjoy these motor journeys, which are becoming of sufficient length to be called tours.

While the annual touring period is still some time off, planning of the journey might well be undertaken now. Those who have decided that they will holiday by motor might go a step farther and determine precisely what kind of a trip they are going to take.

There are questions relating to the annual motor outing that should be answered far in advance of actually starting the journey. Regardless of the type of trip contemplated, the family should begin now to make

definite plans. The first point to decide is where to go; after that, the manner of going.

Will it be a camping, sight seeing, mountain, shore or some other kind of journey? To what point or points will the journey lead? What will it cost? By careful planning, how much farther can the appropriation for the vacation be made to go? These are some of the queries to be analyzed and answered. There will be several routes, perhaps, to the site that is chosen. One will be distinctly outstanding, and it should be the one selected. Intelligent consideration and discrimination will enable one to

select the route which is ideal, the one which, when ended, will not find everyone wishing that some other objective had been chosen.

The facilities of branches of the Alberta Motor Association are available in aiding motorists in this and other important aspects of advance planning. Through these branches in Calgary, Edmonton, Lethbridge and elsewhere, motorists will obtain information as to road conditions, scenic advantages and other data. The routes will be clearly suggested, as has been done already for many prospective tourists who have written from points in the United States.

days.

**LUTHERAN CHURCH**  
Westcott 10:30 a.m. German.  
Didsbury 2:30 p.m. German.  
Beginning with a series of sermons on  
the First Article of the Apostles' Creed,  
the Pastor on Sunday will take up the  
subject of faith—"I believe in God the  
Father Almighty, maker of heaven and  
earth," thus reads the First Article. As  
an illustration of his subject the pastor  
will use the story of the Centurion of Ca-  
pernaum.  
Theme: The Centurion of Capernaum  
or Faith illustrated.

### ITEMS OF INTEREST

A speedier service, making long  
distance calls easier to handle, has  
been attained on the Edmonton-  
Calgary government telephone line  
by the installation of a new carrier  
system known as the "multiplex  
voice frequency system."  
This system makes possible hold-  
ing of four conversations simul-  
taneously over one pair of wires.  
With the old system repeaters were

### Burnside Notes

Mr. Joseph Beamish arrived  
from Hamiota, Man., on Saturday  
last to visit his daughter, Mrs. B.  
Pross.

The Jutland W.C.T.U. met on  
Friday last at the home of Mrs. N.  
Eckel. There was a good attend-  
ance and a splendid report of the  
Provincial convention was read.  
The next meeting will be held at  
the home of Mrs. E. McAllister on  
July 3.

Don't forget the dance in the  
Lone Pine Hall, Friday, June 14.

The Junior U.F.A. will meet on  
Monday evening, June 17, when  
Miss Annie McCulloch, who has  
been attending the University  
Week for farm young people, will  
give a report of the gathering.

Messrs. Dave and Bill Hughes of  
High River spent a few days last  
week visiting their parents, Mr.  
and Mrs. Enoch Hughes.

Burnside U.F.A. met on Monday  
evening of this week. Since our  
annual picnic day falls on Sunday  
this year, it was decided to hold  
the picnic on Saturday, June 29.  
Dinner at noon. Ladies bring bas-  
kets. Hot dog supper. Dance at  
night, 8 to 12. Everybody come  
and have a good time.

reduced at Red Deer, but the new  
method requires repeaters only at  
distances of 350 miles. The old  
system is being used for local toll  
service between Calgary and Leth-  
bridge.

Calgary's present population, as  
estimated by Henderson's 1929  
Directory of Calgary, issued Tues-  
day last week, stands at 102,470,  
an increase of 14,830 or 17 per  
cent over the estimated figure for  
last year. The year's increase, the  
directory states, is the largest re-  
cord in 15 years—since the boom  
days before the Great War. The  
directory estimate is based on the  
actual number of names contained  
in the volume, multiplied by a  
common multiple, to allow for the  
married women and children,  
whose names do not appear.

London, June 10—The sea is  
claiming England at the rate of 40  
feet a year. The town council of  
Lowestoft recently met to consider  
means of building barriers to pre-  
vent the washing away of the land  
in its vicinity. At Pakefield, a  
village near Lowestoft, the sea has  
been gaining on the land at an av-  
erage rate of 10 feet a year. Erosion  
is felt in other places in Eng-  
land. A road at Pennanenbach is  
endangered. A suggested plan is  
to remove this road and to tunnel  
through a cliff bordering the sea.

Building contracts awarded in  
Alberta during the year 1928 re-  
ached a total value of \$17,909,700  
showing an increase of approxi-  
mately 130 per cent over the cor-  
responding figures, \$7,507,300, for  
1927. The contracts numbered  
1437 in 1928 as compared with 892  
in 1927. Included in the 1928  
program of construction were 578  
business and industrial structures  
valued at \$12,851,000, 49 engineer-  
ing structures valued at \$1,717,-  
000 and 810 residences erected at  
a cost of \$3,340,700.

### A Munificent Gift

Mr. W. H. Askew, Of Scotland, Donates Large Sum To Aid British Colonization In Canada

The Department of Colonization and Development of the Canadian Pacific Railway announces a munificent gift on the part of Mr. W. H. Askew, of Ladykirk, Scotland, to the cause of British colonization in Canada. Mr. Askew who is a gentleman of means and well known in Scotland for his broad public spirit, has provided ten thousand dollars to enable suitable families from the border regions of England and Scotland to emigrate to Canada and engage in agricultural work.

Forty of these families are now on their way from Great Britain, and their departure has received wide publicity in the British press on account of the original circumstances under which these families are being moved.

The fact that Mr. Askew has provided ten thousand dollars makes possible, under the provisions of the Empire Settlement Act, an advance of a further ten thousand dollars for the forwarding of suitable British families to Canada. The Act in question authorizes the Secretary of State to co-operate with private organizations in formulating and carrying out schemes for affording joint assistance to suitable persons in Great Britain, who intend to settle in any of the Overseas Dominions. It is quite possible, therefore, that as a result of Mr. Askew's decision to assist prospective British colonists in the manner mentioned, three hundred families may be enabled to come forward to Canada. The number depends on the precise amount advanced to each particular family.

At Mr. Askew's request the Department of Colonization and Development, Canadian Pacific Railway, has entered into an agreement with the Secretary of State for Dominion Affairs, for the recruiting, placement in agricultural occupation and all general administrative work connected with the scheme.

The families which will arrive during the next week-end will be at once distributed on arrival in Canada in placement which has already been assigned; twenty-five families having been allocated to the Canada Colonization Association, subsidiary of the Department of Colonization and Development; others will occupy new cottages erected by the Colonization Construction Branch of the Canadian Pacific, and the remainder on farms prepared by the Canadian Pacific under the agreement made last fall with the Overseas Settlement Committee.

Asked for his personal comment on this new scheme Colonel J. S. Dennis, C.M.G., Chief Commissioner of the Department of Colonization and Development, said: "I have no hesitation, whatever, in saying that Mr. Askew's magnificent action is a strong reminder that the whole matter of the movement of British colonists to Canada calls for special efforts on the part of all organizations and individuals who are in a position to speed up the important task in question. As is well known we have always concentrated our efforts on the movement of the largest possible number of British settlers in that connection, but due to conditions which have existed in the last few years and the administrative difficulties, which seem to arise, now and again, under the apparently necessary numerous regulations which must be observed, results have been disappointing. The Askew scheme, however, as it is sure to be widely known in the future, marks a step forward in the progress of British colonization in Canada, and we are greatly pleased, of course, that Mr. Askew should have seen fit to ask us to join in this proposal, which is now eliciting much commendation in Great Britain, and will continue to reflect the greatest credit and satisfaction to its sponsor."

Corns disappear when treated with Holloway's Corn Remover without leaving a scar.

### The Board Of Health

Strolling along the quays of New York harbor, an Irishman came across a wooden barricade placed around the enclosure where emigrants suspected of suffering from contagious diseases are isolated.

"Pwhat's this boarding for?" he enquired of a bystander.

"Oh," was the reply "that's to keep out fever and things like that, you know."

"Indade!" said Pat, "olive often heard of the board of health, but be jabbers, it's the first time ol've seen it!"

### Record Of Earthquakes

On the average over 200 earthquakes a year, or roughly one a day, are registered on the seismographs at the Dominion Observatory, Ottawa. The majority of these, however, do not involve any serious disturbance anywhere, and comparatively few originate in Canada.

Minard's Liniment for sick animals.

### Your food doesn't do you any good if you're tired

At the end of a day's work, relieve nervous tension before eating. Wrigley's will refresh and tone you up—so that you're ready to enjoy your food.

Then, after meals, Wrigley's helps digestion, cleanses the teeth, removes all traces of eating or smoking—sweetens the breath.

### Carload Of Muskrats

#### One Thousand Animals Shipped From Oak Lake To Germany

A carload of live muskrats bound for Hamburg, Germany, left Oak Lake at the end of April, via the Canadian Pacific Express, there being 1,000 animals in the shipment. They were trapped in the Oak Lake breeding grounds and shipped in boxes by Furs Limited, each box containing twelve pair. This is believed to be a record shipment.

### HOUSEHOLD CARES

#### Fall Heavily On the Woman Who Is Run Down—Thin Blood the Trouble

To the woman who has her household to do and her family to attend to, illness is almost a calamity. Many a woman keeps on with her household duties when she is feeling ready to drop. Her head aches, she may be breathless at the least exertion she has little relish for food, and always feels tired and nervous. The trouble is poor blood—thin, watery blood, and she badly needs the health help that only Dr. Williams' Pink Pills can give her. The rich, red blood which comes through the use of these pills promptly restores anaemic sufferers to good health. Among the thousands who have found new health through the use of this medicine is Mrs. John W. Macdonald, Cardigan, P.E.I., who says:—"I can most strongly recommend Dr. Williams' Pink Pills. I was so run down in health that I was unable to do my household work alone. My husband thought I would never get better, as I had tried different kinds of medicine, with no benefit whatever. I was advised to try Dr. Williams' Pink Pills, which I did, and to my joy I found they were just the thing I needed. I took six boxes of the pills and found myself restored to my old-time good health."

Try Dr. Williams' Pink Pills for anaemia, rheumatism, neuralgia, nervousness. Take them as a tonic if you are not in the best physical condition and cultivate resistance that will keep you well and strong. Get a box from the nearest drug store and begin this treatment now; or you can get the pills by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Bow Bells Out Of Order

The noted bells of Bow Church in the City of London, the bells that chimed the old tune, "Turn again, Whittington," are not ringing. The bells are out of order and money for their repair not available.

## Heart Trouble Hands and Feet Numb and Cold

Mrs. Wm. Fowler, Auburn, Ont., writes:—"Several years ago I was troubled with my heart and nerves, so bad, at times, my hands would become numb and cold. I took doctor's medicine, for a while, but it did me little or no good. I happened to see

advertised and started taking them at once, and continued for some time, and since then I have had no return of my trouble."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

### Noted British Statesman

Wife Of Mr. Amery Is Native Of Whitby, Ont.

The better half of Mr. Amery is Canadian. He married the charming Florence Greenwood, of Whitby, Ont., whose brother is Sir Hamar Greenwood, also a member of the British Parliament and the last man to fill the office of chief secretary for Ireland.

Mr. Amery is short in stature but broad in shoulder. He has thoroughly developed his muscle as well as his brain. He took a "double first" and became a don at Oxford. For a spell he was an editorial writer on "The Times" and special correspondent for the paper in South Africa.

He sits in Parliament for one of the Birmingham divisions and is a whole-hearted protectionist. It is generally asserted to have been entirely due to him that in 1923 Mr. Baldwin appealed to the country for a mandate to introduce protection—a mandate which was emphatically refused.

As first lord of the admiralty Mr. Amery was responsible for the Singapore naval base scheme. When he was appointed secretary for the colonies and dominion affairs—this double name was adopted about a year after his appointment—he reached an office entirely after his own heart, though some of the government newspapers here regarded the appointment with misgiving.

Early last year he concluded a six months' tour of the empire. One Conservative paper described him at the time as returning "more than satisfied with the result of his first-hand examination of Britain overseas;" another Conservative organ said he had covered 50,000 miles in point of space, adding it would hate to guess how many miles of newspaper type he had covered in point of speech.

### Four Hundred Years Ago

#### Luther's Catechism Is Still Being Used In Lutheran Schools

While text books change often and few studies today are a decade old, one yet in use can celebrate its four hundredth anniversary with the Lutheran World Congress, June 25 to July 31. "Luther's Catechism" was written four hundred years ago, and still is used in Lutheran schools. The Lutheran church is the largest Protestant church. Its membership is estimated from 75,000,000 to 80,000,000, mostly in Northern Europe and America. The three books translated into most languages in the world are: The Bible, in about 80 languages; "Luther's Catechism," in 137; "Pilgrim's Progress," in 107. The most translated hymn is Luther's "A Mighty Fortress," in 150.

Peevish, pale, restless, and sickly children owe their condition to worms. Mother Graves' Worm Exterminator will relieve them and restore health.

### How To Dye An Old Rug

#### Successful Method That May Be Used In The Home

Old rugs may be dyed at home in a practical manner reads an article in the May issue of "Successful Farming."

"First of all, spread the rug out flat and scrub thoroughly clean with one can of rug soap and water. Let it stand for fifteen minutes and then spray well with cold water from the garden hose, or rinse with buckets of cold water. For a 9 x 12 rug use six packages of one of the standard, well known brands of dye designated for silk and wool mixtures. Set the color with a half pint of vinegar, full strength. The rug will take the dye nicely while still damp but the drying takes some time."

### A Logical Conclusion

Father—"Jimmy, why did you lick the little Jones boy?"

Jimmy—"You told me to."

Father—"I told you to! Why, my son, what do you mean?"

Jimmy—"Didn't you tell me the other day that it was more blessed to give than to receive?"

Father—"Yes, but—"

Jimmy—"Well, I had to give him a lickin' or receive one."

Only those who have no worries can afford to look worried.

### To Stimulate Sheep Raising

#### Plan Inaugurated In Manitoba To Assist Farmers

The proposal launched in Brandon during March by His Honor, Lieutenant-Governor James D. McGregor, for the stimulation of sheep-raising in Manitoba, has now been put on a working basis in Winnipeg. The Manitoba Livestock Credit Company, Limited, has been organized with the aims and objects of assisting the farmers of the province to put more sheep on their property. The authorized capital of the new company is \$500,000 and A. L. Cresslin, of Winnipeg, is president, Hon. J. D. McGregor, vice-president, John McEachern, treasurer, and Thomas A. Acheson, secretary and manager.

It Will Relieve a Cold.—Colds are the commonest ailments of mankind, and if neglected may lead to serious conditions. Dr. Thomas' Electric Oil will relieve the bronchial passages of inflammation speedily and thoroughly and will strengthen them against subsequent attack. And as it eases the inflammation it will usually stop the cough because it allays the irritation in the throat. Try it and prove it.

### World's Highest Bridge

The new Grand Canyon Bridge on the Arizona Highways, is 485 feet in height, and therefore beats the hitherto unassailed record of the Victoria Falls Bridge with its 425 feet from the river's bed.

WHEN a cold or exposure brings aches and pains that penetrate to your very bones, there is always quick relief in Aspirin. It will make short work of that headache or any little pain. Just as effective in the more serious suffering from neuralgia, neuritis, rheumatism or lumbago. No ache or pain is ever too deep-seated for Aspirin tablets to relieve, and they don't affect the heart. All druggists, with proven directions for various uses which many people have found invaluable in the relief of pains and aches of many kinds.

## The Desert Song

—BY—

VIRGINIA MORRIS

Copyright 1929 Warner Bros. Pictures, Inc.

"The Desert Song" is a Warner Bros. picture. It is based upon the story by Otto Harbach, Laurence Schwab, Oscar Hammerstein, 2nd, and Frank Mandel.

### CHAPTER I.

Greedy the copper coin of the sun was tossed by some invisible hand into the coffers of the desert. Now a purple radiance suffused the burning sands till the deepening twilight gradually wrapped its cloak all around. A few hours before a pure silver moon had been poised in the cloudless daylight sky, but as night descended this assumed a golden red and seemed to retain, concentrated in its mellow circle, all the glow and color of the desert landscape that was now clothed in a nocturnal mantle.

Out of the range of the moon's brightness silver stars began to show their glinting lights. A soft cool breeze slowly blew up, shifting the sand drifts into new undulation that stretched to far horizons. The majestic silence was so intense as to be almost audible.

One would have sworn that not a human being dwelt within ten leagues of the spot. Then all at once out there in the infinity of desert space arose a faint stirring. For a moment nothing was seen, but as the stirring grew into a definite far-off sound, under the rich light of the orange moon there appeared a tiny speck where sand and sky met on the distant horizon. Over the crest of the dunes another speck appeared, followed by countless others. But now the leader was distinguishable as a rider on a fleet-footed horse, followed by a ribbon of other desert cavalymen clad in turbans and flowing robes, their rifles held high in their right arms to proclaim their warring spirit.

The swish of galloping hoofs raising granules of sand in a dusty trail behind them was at first the only sound to break the stillness. But as the last rider came into view over

the crest of the distant slopes the voices of a hundred men filled the night singing the rousing bars of their tribal song, the song of the Riffs, those desert outlaws who have scorned the domination of the alien French.

Far across the desert these riders swept until they reached the crags where they had their secret encampment. Up a short trail their horses climbed to an opening in the rocks that formed a narrow cave. Here they dismounted. Some vanished to where a cauldron was stewing goat's meat for the evening meal.

In the fire's light Sid El Kar, Lieutenant to the Red Shadow—the leader of the Riffs, examined some messages that the horsemen had brought from scattered members of the tribe. The subordinate who stood beside him ventured a worried comment:

"I hope the French don't find us. This new leader of theirs, Captain Paul Fontaine—"

Sid El Kar uttered a vile oriental oath and spat in the sand. "To the devil with him. For five years the frog-eaters have been chasing our band and all they have caught—is our dust!"

"But," put forward the other, "it is different this last week since Captain Fontaine has taken command. Three times they have nearly trapped us."

Sid El Kar's mouth framed a contemptuous sneer. He pointed to the tent that lay pitched closest to the fire.

"Our Red Shadow is a match for a million Captain Paul Fontaines!"

There were few faint hearts in the Riff band. They had confidence in their prowess as fighters and above all in the bravery of their mysterious and intrepid leader, the Red Shadow. A stranger out of nowhere, he had come to champion their cause against the tyranny of the French who believed that the desert people were best subdued by the imperious attitude of conqueror and vanquished. But even against the armed forces of the French garrison, the Riffs had succeeded in preserving their independence. Now led by this fearless desert Robin Hood, they defied the rule of the foreigners and defended their desert brothers against the domination of those who failed to understand their customs or their emotions. Surely the Red Shadow was sent by Mahomet to protect his children! None knew whence he came, but when the signal fires were lit and the Riffs assembled, the Red Shadow always appeared as if by magic. Then when the good work was accomplished he rode off, where no one could say.

Attracted by the savory scent of the cooking, other members of the band who had watered their horses and tethered them, now drew near the fire. To their companions who had remained in camp they recounted the news they had gathered on their latest expedition. The whole town, it seemed, was talking of this Captain Paul Fontaine who, with a regiment of devils from the Foreign Legion, had set out to discover the Riffs' hiding place. General Birabeau, commandant of the post, was offering him every assistance with additional horses and troops.

They had picked up another juicy bit of gossip, too. Captain Fontaine was in love, madly enamoured of a beautiful and chic French girl, Margot Bonvalet, who had recently come out from Paris. Her father, so one said, was a lifelong friend of General Birabeau, and it was at his quarters that she was staying—and breaking the heart of every handsome officer in the regiment. But her preference, it was clear, was for Fontaine who had promised her, with a gesture of bravado, that he would bring her the Red Shadow as a prisoner.

The threat caused a wave of mer-

riment among the band. The Riffs would never fall under the power of the French!

"To kill the Red Shadow, Fontaine must kill us all!" shouted one of them lustily.

"May evil spirits possess them, Fontaine and—Margot Bonvalet!" added another fiercely.

All at once their talking ceased. They drew themselves to military attention. For before them stood the Red Shadow himself!

### CHAPTER II.

Every line of his fine straight figure proclaimed the fighter. He wore a loose, bright scarlet burnoose, the hood of which was held firmly around his forehead by a white band. He was shod in gleaming black military boots and his sword was sheathed in the scabbard that hung beneath the folds of his cloak. His chin suggested that his face was as handsome as his physique but one could not be sure of this because his cheeks and eyes were concealed behind a scarlet mask. This, which he always wore, had helped to surround him with an aura of mystery for even his closest henchman had never seen him without it.

With a wave of his hand, the Red Shadow signaled his followers to be at ease. They relaxed from their military attitude and segregated into small groups. Their leader approached Sid El Kar and Hassi, who was another of his trusted fighters in spite of his advancing years.

"I overheard this talk of Captain Fontaine," he said, "and I scorn his threats! But I do not like the references to this girl they call Margot."

His listeners looked up in surprise. Then he continued, addressing himself to Hassi, "My friend, I want your promise. The sign of the Heart and the Head."

"It is gladly given," affirmed the oriental as he placed his right hand over his heart, then raised it solemnly to his forehead in the desert ritual that signifies a sacred pledge.

The Red Shadow lowered his voice to a whisper, "If anything should happen to me, no harm must ever come to Margot Bonvalet!"

The two Riffs regarded him with astonishment.

"Master, I do not understand," said the perplexed Hassi.

## When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient, and

harmless. It has remained the standard with physicians in the 50 years since its invention.

It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

"No," agreed the Red Shadow, "you do not understand me. That is because you are Mohammedans while I am French."

"But," interrupted Sid El Kar, "none of the band knows you're French, except us two!"

"That is why I am asking this promise of you," insisted their leader. "No harm must ever come to Margot Bonvalet."

"Now, listen, Master," argued Hassi, "after all she's only a woman."

"That is the oriental in you," retorted the Frenchman, "you cannot understand western love, but let me tell you this, I would not be your leader if it were not for this Margot."

Then for the first time he disclosed to them the motives that had led him, an outsider, to champion the cause of the Riffs and their people. A strange story it was that he told them! Eight years ago in Paris he had fallen in love with this girl. She had refused to take him seriously, had called him a silly boy—so he had enlisted in the French army to prove to her that he was a man. He set out from home with a contingent sailing for Morocco, under the command of General Fontaine, Captain Fontaine's own father.

This general had been notorious for his cruel treatment of the na-

tives. Sometimes his own men used to refer to him secretly as the Butcher. One day he had commissioned the one now known as the Red Shadow to raid a certain village. The soldier had refused to exercise this unnecessary brutality and his superior had struck him full in the face, cursing him and calling him a cowardly traitor. To escape the inevitable sentence that the court martial would pass for insubordination, he fled to the hills where the Riffs made their lair.

(To Be Continued.)

Some girls get husbands, and some never learn the art of telling men how wonderful they are.

North: "I like to be alone."

West: "Well, you could stay at home evenings!"

### Burned From The Sun?

Minard's will bring soothing relief. Apply Minard's too for any skin irritation.

## Why go to Peru?

When crude oil is so plentifully available here in North America, why does Imperial Oil Limited go 4000 miles to Peru for the crude from which Marvelube is made?

It is because Peruvian crude has lubrication properties which make it particularly desirable as a base for a superior motor oil.

That is why Marvelube is giving aircraft operators longer periods between engine overhauls and a greater margin of safety.

Marvelube meets the needs of the modern high-speed motor, in the air or on the road, because its carbon-free and heat-resisting superiorities are created by Nature herself.

Let Marvelube give you the benefits of better lubrication. There is a grade of Marvelube refined to meet exactly the specifications of your car, truck or tractor. See the Marvelube Chart at Imperial Oil dealers and service stations.

## Marvelube

From far Peru comes a better crude to make a better motor oil/

## Didsbury Fish And Game Ass'n Meet

(Continued from Page 1)

with the Government of the United States to form legislative measures to protect the wild ducks and geese, which, after spending the summer in Canada, migrate to the south in greater number for the winter. Previously these wild waterfowl have been at the mercy of the sportsmen to the south of us. The second fish hatchery is being established at Waterton Park this year, supplementing the one at Banff.

Mr. Richardson, of the Federal Department of Marine and Fisheries, spoke briefly, stating in particular that the local Association was to be commended for their initiative, not only in organization, but in the direction of the enforcement of regulations in respect to the Game Act in this particular district.

W. H. Davies, vice-president of the local Association, emphasized that the benefit of the present day measures would be for the rising generation. They should thus associate themselves with such an organization. The speaker moved a vote of thanks to the special speakers of the evening and to the C.P.R. for the use of the motion pictures.

Two other members of the Calgary Association, who accompanied Mr. Hayden to Didsbury, spoke briefly, supporting the movement.

### AN EXAMPLE OF EFFORT

One resident of the district seems to be in the list of big prize winners. Charles Kohut, we understand, has gathered in over 1,500 crows' and magpies' eggs, 200 crows' and magpies' feet and 300 gopher tails. How's that for a start? June 30 is not far away to capture the extra prizes. The contests close November 1, 1929.

The following have subscribed to the "Pheasant" fund:

A. G. Plunkett	\$5.00
J. A. McGhee	3.00
W. H. Davies	3.00
W. D. Archer	3.00
D. Dippel	3.00
F. Moyle	3.00
H. Ross	3.00
G. H. Liesemer	3.00
C. F. Dooley	3.00
G. Julien	3.00
H. C. Liesemer	3.00

Anyone wishing to subscribe to this fund or to become a member, kindly see Dr. H. C. Liesemer or George Julien.

Following are members of the Didsbury Branch, Fish and Game Association:

J. A. McGhee, W. H. Davies, D. Dippel, G. Julien, W. A. McFarquhar, H. C. Liesemer, G. H. Liesemer, J. Hosegood, Frank Moyle, Hugh Ross, C. S. Mortimer, C. E. Reiber, F. Budgeon, J. S. McCloy, F. Gaufman, C. Dickau, E. T. Sharman, C. H. Adshead, C. F. Dooley, A. McNaughton, Geo. Watson, W. D. Spence, W. H. Herbert, Geo. Smith, J. H. Fleury, A. V. Buckler, J. W. Wordie, H. Lee, D. M. Sinclair, L. G. Park, Roger Barrett, H. Roberts, A. W. Axtell, Wm. Pitt, Ivan Weber, J. B. Wothington, W. D. Archer, J. McDougall, John Manson.

King George Lodge, Calgary, paid a fraternal visit to King Hiram Lodge, A. F. & A. M., Didsbury, Tuesday evening of last week. A sumptuous banquet was prepared by the ladies of the local chapter of the O.E.S. and about 120 sat down to the well-filled tables in the Oddfellows Hall, after work. The visitors supplied the music and entertainment. The program was one of merit and exceptionally enjoyable.

## Alberta Institute Of Co-Operation

Lethbridge Olds Vermilion  
June 24-29, 1929

Arrangements have been completed for the holding of three separate Institutes of Co-operation in the Province, similar to the one which proved so successful in Edmonton last year.

The meetings will be addressed by speakers who are outstanding authorities on various phases of co-operation in many parts of the continent, and special attention will be paid to the problems in co-operation affecting Alberta farmers. The co-operative marketing of wheat, livestock, dairy products, and poultry and eggs, and the consumers' co-operative movement will be considered and discussed.

Special arrangements are being made for the junior section of the Institutes, and for the instruction and entertainment of the young people who will attend.

Plan to attend the Institute nearest you home, and in order to ensure accommodation, communicate at an early date with the registrar—

M. L. FRENG,  
Dist. Agriculturist,  
Lethbridge, Alta.

F. S. GRISDALE,  
Principal, School of  
Agriculture,  
Olds, Alta.

W. J. ELLIOTT,  
Principal, School of  
Agriculture,  
Vermilion, Alta.
